

Nay Win

FULL-STACK DEVELOPER

[Bento](#) | [Email](#) | [Github](#) | [Linkedin](#) | [Portfolio](#) | [+66961756397](#) | Bangkok, Thailand

SUMMARY

A strategic and decisive Full-Stack Developer with 5+ years of experience turning complex ideas into digital magic. Specializes in crafting blazing-fast web and mobile experiences with **React/NextJS** and **Laravel/NodeJS**. Known for cracking performance bottlenecks, charming every pixel, orchestrating seamless APIs, and automating deployments. Proven in leading cross-continental teams and delivering scalable, clean solutions that ship fast. Let's build something magical together.

SKILLS

Frontend

ReactJS · NextJS · Redux (Toolkit) · TypeScript · Tailwind CSS · jQuery · Responsive & Pixel-Perfect UI · Code Splitting · Lazy Loading · Performance Optimization

Backend

PHP (Laravel) · NodeJS · REST API Design & Integration · MySQL · MongoDB · Firebase & Firestore · Authentication & Security

DevOps & Tools

Git & GitHub · CI/CD Pipelines · Docker · Netlify · Postman · Jest (Testing) · Automation Scripts

Soft Skills

Transparency · Collaboration · Clear Communication · Problem Solving · Fast Learner · Negotiation

PROFESSIONAL EXPERIENCE

[Phluid Worldwide](#) [SG] — Full-Stack Developer

Apr 2023 – Present | Remote

- Built and maintained responsive admin panels and campaign websites using ReactJS with a focus on a smooth user experience
- Designed and integrated clean REST APIs with Laravel for mobile apps and admin systems, significantly speeding up data delivery
- Led frontend performance optimizations and created automation scripts that dramatically improved load times and deployment speed
- Shortened project delivery timelines through strong coordination with design, backend, and QA teams

[National Cyber City](#) [MM] — Full-Stack Developer (AIoT Projects)

Apr 2021 – Apr 2023 | Freelance

- Crafted IoT platforms, real-time chat, and e-commerce systems using modern stacks
- Improved operational efficiency and delivery speed by 30% through real-time systems, performance optimization, and cross-team coordination
- Ensured consistent performance across web, mobile, and IoT interfaces
- Coordinated and Enhanced across design, mobile, backend, and QA to shorten project timelines

[Tec Link Myanmar](#) [MM] — Full-Stack Developer

Jun 2022 – Apr 2023 / On-site

- Contributed key features to an e-commerce platform using ReactJS and NextJS
- Supported Door to Door, a cross-platform delivery control app (Android, iOS, Web), ensuring smooth production releases
- Optimized critical modules and rendering processes to greatly improve application speed
- Enhanced mobile performance through smarter resource handling and UI improvements
- Collaborated with QA and DevOps to streamline deployment pipelines and reduce release friction
- Helped ship features faster via proactive debugging and clear issue tracking

[Neocardz / Neocardz Enterprise](#) [SG,IN] — Frontend Developer

Jun 2022 – Apr 2023 / Freelance

- Spearheaded the design and development of Neocardz (Digital Business Card with NFC) and Neocardz Enterprise platform for companies and universities
- Applied code splitting, lazy loading, and advanced optimizations to deliver lightning-fast experiences
- Implemented robust CI/CD workflows that made deployments quick and reliable
- Accelerated project delivery by improving team workflows, milestone planning, and frontend-backend sync

[Nanolabs Limited](#) [MM] — Backend Developer

Jun 2020 – Nov 2020 / Remote

- Assisted in building backend systems for an e-commerce platform using NodeJS and ReactJS (product listing & checkout)
- Improved API response speed through efficient query design and database optimizations
- Helped set up CI processes that made deployments smoother and reduced release time

EDUCATION

Bachelor of Computer Science

University of Computer Studies, Meiktila (2014 - 2020)

- E-commerce Business Context
- Mentorship & Early Leadership
- Debugging/Optimization Focus

Additional Experience

[Green Hackers Institute](#) — Web Design Teaching Assistant

Oct 2019 – Dec 2019 / on campus (MM)

- Mentored 20+ students in HTML, CSS, JavaScript, and modern libraries
- Debugged and optimized student projects for cleaner, faster results
